DETAILED ACTION

Claim Objections

Claims 4-7, 12-13 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from a multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 4-7, 12-13 have not been further treated on the merits.

Claim 17 is objected to because of the following informalities: the claim depends from itself. Appropriate correction is required.

Allowable Subject Matter

Claims 1-21 are allowable over the prior art of record.

The following is a statement of reasons for the indication of allowable subject matter: none of the prior art of record fairly discloses the method for producing water containing ozone by electrolysis in particular the pressing force is carried out, in which the pressing force of the anodic electrode, the cathode electrode or both electrodes as against the solid polymer electrolytic membrane changes in accordance with a preset condition, after that the pressing force. Another embodiment recites the recover the efficiency of the solid polymer electrolyte membrane, the current value or the voltage value changes rapidly
